Problem 5 SAYI DOĞRUSU

Sayı Kartı'yla sayı doğrusunun eşleştirildiği bir örnek verilmiştir.

- Diğer eşleştirmeleri yapınız.
- Boş bırakılan Sayı Kartları'nı boyayınız.
- Sayı doğrusundaki eksik sayıları tamamlayınız.

The image shows a number line and three number cards. The number line is a horizontal line with arrows at both ends, marked with numbers 0, 1, 4, 5, 6, 9. There are also empty dots on the line at positions corresponding to 2, 3, 7, 8, and 10. The three number cards are arranged in a 2x3 grid. Each card has two rows of five circles. The top row of each card is filled with blue circles. The bottom row of each card is empty. A label 'Örnek' (Example) is placed above the first card. Dashed lines connect the 'Örnek' label to the number 5 on the number line. Another dashed line connects the first card to the number 5 on the number line. A third dashed line connects the second card to the number 9 on the number line. A fourth dashed line connects the third card to the number 10 on the number line.
